

6000 Series - Modular Dog Kennel 8' x 8' - MDK 886

MDK 886 The Big Dog Modular Covered Kennel.

- Introducing our biggest Modular Dog Kennel - the Big Dog Series. Big Dog Kennels are constructed using ultra duty 72" high walls with 2" welded square carbon steel 3.5mm diameter wire grade steel frame.
- Advanced engineered triple-layer, rip-stop, waterproof polyethylene cover is UV treated inside and out with added fade blockers, anti-aging, anti fungal agents, that protects your pet from the elements. Four point adjustable cover ties downs with ratchets for quick easy assembly and a tight fit cover.
- Using only a 7/16" wrench the MDK886 go from box to backyard in less than 90 minutes. Innovative pre-assembled welded panels are bonded with Dupont™ thermoset baked on powder coat finish prevents chipping, peeling, rust and corrosion.
- Oversized 24" X 72" reinforced door frame has escape-proof door and lockable latching system for added security.
- All wire mesh welds are placed outside kennel, eliminating sharp and hard edges and wing nuts that could cut or create snag points and get caught on animal collars.
- Includes a quick-connect roof, reducing your animal's exposure to sun and heat.
- Kennel Lift Spacers add stability and allow for easy clean-out.

Great For:

Dog, animal or livestock shelter, backyards, decks, patios or garages.

- Two retail packages.
