

4000 Series - Modular Dog Kennel 8' x 8' - MDK 884

Biggest Best Built 4000 Series Modular Dog Kennel

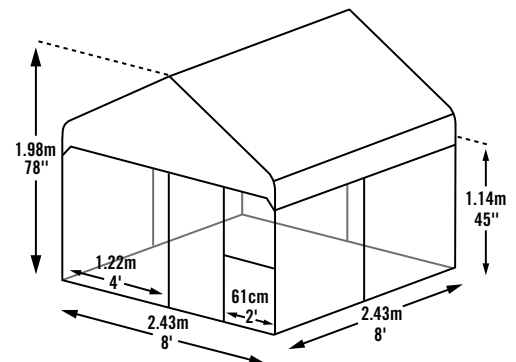

- More usable space, easy set up and ultra sturdy design are what you will find in our largest Series 4000 Modular Dog Kennel. Constructed with heavy duty 2" Square mesh 3 mm diameter wire grade steel frame the MDK 884 delivers ultimate durability.
- Innovative integrated push button snap roof design with square electroless nickel-plated powder coat connectors. All steel frame, bonded with Dupont™ thermoset baked on powder-coated finish.
- Solid welded door panels with steel machined lockable latch assembly. Using only a 7/16" wrench the Modular Kennel's clamping system is 100% interchangeable and goes from box to backyard in less than 60 minutes.
- Advanced engineered, triple-layer, rip-stop waterproof polyethylene weave cover. UV treated inside and out with added fade blockers, anti aging and anti-fungal agents. Four point adjustable cover tie downs keep cover tight to frame.
- Kennel Lift Spacers add stability and allow for easy clean-out.
- Oversized 24" x 45" reinforced door frame with escape proof lockable latching door system.

Great For:

Dog, animal and livestock shelter. Quickly Installs in backyards, larger decks, patio, garage or cement slabs.

- Two retail packages.
