

AG Shelter Series 12' x 24' x 10' Run-In Shed

Instant Equine Shelter. Protect Your Livestock Investments.

- Specifically designed for equine and livestock, the 12' x 24' x 10' Run-In-Shed goes through a proprietary 13 step Rhino Shield steel surface preparation process.
- 1-5/8" high steel frame, bonded with Dupont™ thermoset baked on powder-coated finish prevents chipping, peeling, rust and corrosion.
- Advanced engineered, 3-layer, polyethylene, rip-stop cover with white interior lining for enhanced illumination. Hot air fused seams are 100% waterproof. UV-treated inside and out with added fade blockers, anti-aging, anti-fungal agents resulting in a cover that withstands the elements.
- Slip fit connectors and swedged tubing make for easy assembly. Bolt hardware at every connection ensures a solid structure.
- Rugged Ratchet Tite™ tensioning enables quick cover installation. Easy Slide Cross Rail system squares up frames and bolt hardware at every connection point for stability.
- Structure sets up quickly and in most cases requires no building permits. Check local ordinance before installation.

Great For: Horses, hay, storage, livestock & farm equipment.

We've Got You Covered.™
North America's #1 Shelter Manufacturer.

Model #51451

Package Includes:

- (1) 12' x 24' x 10' All steel frame
- (1) One-piece, fitted, green polyethylene cover
- (4) Protective corner boots
- Steel foot plates
- (6) 30" Auger anchors
- Complete Hardware Kit
- Easy step-by-step instructions

Packaging Specifications:

- 5 boxes
- Total weight: 355 lbs.
