INCLUDES

BONUS Roll-Up Door Kit

Introducing our largest Garage-in-a-Box yet! 40% of vehicles on the road today are SUVs or full size trucks. We built this garage just for them with a full 8' / 2,4 m of door clearance!

REINFORCED ROOF RAFTER DESIGN

Bigger, stronger Alpine frame with reinforced roof structure adds more volume and overall strength.

EASY SLIDE CROSS RAIL

Best in class feature for continuous cover tightening. Bolt together brackets allow easy access to pressure points for optimal performance.

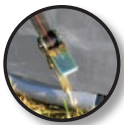

ADVANCED ENGINEERED FABRIC

Our covers are triple layer woven polyethylene that is ripstop tough. UV treated inside, outside and in between with added fade blockers, anti-aging, anti-fungal, and anti-yellowing agents.

PATENT PENDING ALPINE DESIGN FRAME

Bolt-together hardware at every frame connection make this GIB easier to assemble and ultra sturdy.

RATCHET-TITE COVER TENSIONING

Ensures a drum tight cover and door panel connection to shelter frame. Quality ratchet and web strap components keep cover tight and neat looking.

Great For: Most SUVs or full-size trucks up to 20' in length.
